

Alcadon distributes CommScope's innovative telecommunication solutions in Sweden

CommScope, a global leader in network connectivity, is collaborating with Alcadon in the Swedish market across the telecommunications industry. This builds on Alcadon's long term history as a CommScope distributor for Enterprise innovation in Sweden and telecom systems in Denmark.

"Alcadon has had a long-standing and close collaboration with CommScope in several markets. In Sweden, until today, the focus was primarily the Enterprise segment. We are very pleased to now be able to work in close collaboration with CommScope also within Telecom in the Swedish market. The collaboration significantly strengthens our customer offering and complements the group's existing customer offer."

Sonny Mirborn, CEO of Alcadon AB and Alcadon Group

"A radical expansion of bandwidth will open up capacity for new services and allow exciting ideas to be explored in novel ways. As we move toward the goal of lightning-fast signals, we'll continue to collaborate with Alcadon to ensure businesses have the innovation to enable a hyper-connected economy across Sweden."

Louise Vraa Lind, Sales Director CommScope.
